Take a look at the list of analyses. It is fairly extensive. Not sure if we can help with analysis. Leaving sample collection for mike to respond.

Mike Felix from NDEQ asked if we could help with some investigatory work at one of their ethanol plants. Taking samples and some analysis. Could you take a look at the scope and see if we could provide assistance with some of the work. It would fall under enforcement and tracked as such.

Cecilia,

Attached is the workplan for the above project that we discussed over the phone. We would be interested in any EPA assistance that could be provided for conducting the field sampling and laboratory analysis and reporting. Thanks

Mike Felix
